

FALL 2022 PROCEDURE FOR PREREGISTRATION

Academic advising and preregistration for the Fall Semester 2022 will be held on February 9-March 7. All students who expect to continue at Westminster College during the Fall 2022 should make an appointment to see their advisor during this time.

PREREGISTRATION INSTRUCTIONS:

All returning students should meet with their advisor prior to the date that computer access is turned on (see schedule below). The student and academic advisor will prepare a tentative class schedule that will be entered by the student when access available. Further detailed student instructions regarding the registration process will be available on MYWC.

Make an appointment to see your advisor during the following dates:

Academic Advising for all students will be held on February 9-March 15

	<u>Registration Access Begins</u>
Seniors/Juniors (57 hours or more*)	11:00 a.m., Tuesday, March 8
Sophomores (27-56 hours*)	11:00 a.m., Thursday, March 10
Freshmen (0-26 hours*)	11:00 a.m., Tuesday, March 15
SOAR New Student Registration	Saturday, March 19

*Cumulative hours at the end of Fall Semester 2021 or Winter 2021

All Fall 2022 courses should be entered by Friday, March 18. Student access to enter courses for returning students will be unavailable after 4:00 p.m., on Friday, March 18 but will reopen after new student registration..

Note: Students who are currently on a registration hold, and are not current with an approved payment plan, WILL NOT be permitted to register for next semester. If a student has a balance, is on a payment plan, and is current with that payment plan, then the student will be able to register for fall semester classes regardless of the amount of the balance on their account. If the student falters post-registration and is no longer in good standing regarding their payment plan, then the student could be removed from their fall semester classes. Please contact the Business Office immediately if you are currently on a financial registration “hold” and would like to set up a payment plan. Students should check MYWC prior to their registration access time to determine if there is a hold on their registration.

Students will enter their classes through the MYWC Web Module. Students should meet with their advisors during the designated time above and complete a tentative schedule. If you are unable to contact your advisor during your designated registration time, please contact the Registrar’s Office. **Note: Repeated courses or courses added that will result in an overload (over 19 credit hours) must be approved in advance.**

1. Students may enter their courses beginning at 11:00 a.m. on the day of their designated registration access, based on classification, as noted above. Detailed instructions for student web (MYWC) preregistration will be available on MYWC. **Make certain to check for holds on your account prior to your preregistration access time.**
2. **Please check to make certain that you have all required prerequisites before entering your classes.** You will not be permitted to register for courses in which you have not completed the required prerequisite. Permission of the instructor for a required prereq must be requested as a course authorization. A list of required prerequisites will be sent to all students and advisors prior to preregistration.
3. During the preregistration period, enrollment figures are available on the WEB module. Students will not be permitted to enroll in *closed classes* unless they **submit a request to the professor to be added to the waitlist and the professor approves a course authorization.**
4. Independent Study courses (398) and Internships (399) are available in most departments. Students who intend to enroll for an Internship will need the prior permission of the supervising instructor and will need to complete the appropriate forms through the Internship Office. Students who intend to complete an Independent Study (399/409) or an Independent Course should request that the course be added via electronic form by the instructor of the course.
5. All courses with special course fees will be noted on MYWC with a link to the Westminster website. Fees for Private Music Lessons will be prorated if the student drops before census date but must be paid in full if the student drops or withdraws after census date. All other special course fees must be paid in full if the student attends class after census date.

It is our goal to serve the students and faculty and we welcome any comments or suggestions that you might have regarding the on-line registration process. Please contact the Registrar's Office at ext. 5213 or e-mail Phyllis.Masek@westminster-mo.edu with your comments or suggestions.

Lifetime Leadership Skills

Westminster encourages lifetime learning, which is enabled by the development of specific intellectual skills. Breakthrough general education requirements places particular emphasis on skills that are needed for success in the 21st century. To this end, Westminster students will take courses that allow them to sharpen their skills in written and oral communication, information and digital literacy, and research inquiry and analysis.

Skill	Course	Semester	Hours
Writing Intensive: two courses (at least one must be an upper-level course); three courses if transferring in ENG 103			
Oral Communication: one course			
Information and Digital Literacy: one course			
Research: Inquiry and Analysis one course			

Communication: Communication includes the ability to write, speak, read, and listen effectively. Development of these skills is essential for preparing students to be confident communicators with the capacity to convey, engage, apply, and reflect on knowledge accessed within their chosen fields.

Writing Intensive: Westminster students must earn credit in two Writing Intensive courses, one of which must be upper level, to fulfill this portion of the Lifetime Leadership Skills. Students transferring credit in composition must take three WI courses and at least one of the courses must be upper-level. Some professors may offer a course as “Writing Intensive Option” in order to allow a limited number of students to take the course for Writing Intensive credit; it is the student's responsibility to get permission from the instructor of a Writing Intensive option course and to submit the electronic form to the Registrar's Office in order to receive Writing Intensive credit. Writing Intensive courses will be designated with “WI” and Writing Intensive Option courses will be designated with “WIO” in parenthesis after the title of the class.

Information and Digital Literacy: Westminster prioritizes development of the skill of information technology, or the ability to employ computer and other technologies in writing, in the manipulation of data, and in understanding the nature and limits of technology. To adapt to

rapidly changing technology tools, students should have both information and digital literacy. This implies the ability to access, retrieve, evaluate, manage, and use information effectively and efficiently from a variety of print, non-print, and digital sources through the use of computer and other information technologies.

It is recommended students meet the Information and Digital Literacy skill in their chosen field of study. This skill is addressed throughout the curriculum as indicated by courses tagged as IDL.

While courses are not designated IDL in the catalog, they are noted as such in the Schedule of Classes published each semester.

Approved Information and Digital Literacy Courses:

- BIO 114/115: Biological Processes (Lecture and Lab)

Research Inquiry and Analysis: Active learning, analysis, and application are essential for the development of mature critical thinking. In order to further student's development in higher-level thinking, there must be an emphasis on inquiry and analysis. Inquiry is a systematic process of exploring issues/ objects/works through the collection and analysis of evidence that results in informed conclusions. Analysis is the process of investigating complex topics or issues in order to gain a better understanding of the factors that interact and shape relationships, outcomes, or events.

Completing this process of research will help students to apply the tools, theories, and conventions of their field to a specific area of inquiry. Therefore, courses that meet this skill (tagged as RIA) should be taken within the student's field or chosen in consultation with their department.

Fall 2022 Lifetime Leadership Skills

Westminster encourages lifetime learning, which is enabled by the development of specific intellectual skills. Breakthrough general education requirements places particular emphasis on skills that are needed for success in the 21st century. To this end, Westminster students will take courses that allow them to sharpen their skills in written and oral communication, information and digital literacy, and research inquiry and analysis.

Skill	Course	Semester	Hours
Writing Intensive: two courses (at least one must be an upper-level course); three courses if transferring in ENG 103			
Oral Communication: one course			
Information and Digital Literacy: one course			
Research: Inquiry and Analysis one course			

Communication: Communication includes the ability to write, speak, read, and listen effectively. Development of these skills is essential for preparing students to be confident communicators with the capacity to convey, engage, apply, and reflect on knowledge accessed within their chosen fields.

Writing Intensive: Westminster students must earn credit in two Writing Intensive courses, one of which must be upper level, to fulfill this portion of the Lifetime Leadership Skills. Students transferring credit in composition must take three WI courses and at least one of the courses must be upper-level. Some professors may offer a course as “Writing Intensive Option” in order to allow a limited number of students to take the course for Writing Intensive credit; it is the student's responsibility to get permission from the instructor of a Writing Intensive option course and to submit the electronic form to the Registrar's Office in order to receive Writing Intensive credit. Writing Intensive courses will be designated with “WI” and Writing Intensive Option courses will be designated with “WIO” in parenthesis after the title of the class.
