The Health and Wellness major emphasizes knowledge and learning experiences aimed at the promotion of lifetime wellness. Students will know principles of nutrition, holistic health and exercise training. Also, students will learn how to test health and activity status, prescribe safe exercise, prevent exercise injury, and assess client progress toward their wellness and fitness goals. The courses in this major will prepare graduating students for jobs that apply principles of health education and exercise training. More specifically, students may pursue careers in worksite wellness, hospital-based wellness programs, community health centers, retirement and nursing home wellness programs, commercial and non-profit health, fitness, and recreation centers, and other related areas.
