

Transfer Codes – Breakthrough

Because Breakthrough requires that each Theme be covered by a course, *and* that those courses come from six different areas, the codes we use for transfer courses that fill a category have to account for the departmental prefix as well as the Theme that is fulfilled.

In all cases, the prefix of the code indicates the department, and the last three letters indicates the Theme fulfilled. AES for Aesthetics, GLP for Global Perspectives, HDV for Human Development, INS for Institutions & Society, VLD for Values & Diversity, and SCI for Natural Science Inquiry.

More codes will be added as needed.
